Serial No.

but does not give an adequate idea of the exact amount to be spent on these works in that district by Govt. A sum of Rs 10,000 has already been sanctioned for certain works in the Kolar district & this amount may perhaps be taken as the maximum that can be spent by Govt on all works including those now sanctioned.

A draft letter is accordingly submitted for approval on the understanding that Govt would seem to be willing, seeing the urgency of the case (1) to sanction the works proposed (2) to direct that the expenditure in the present year may be met out of the allotment of Rs 10,000 made in the G.O. of 12th inst. (3) to ask the S.E. of the Chief Engr to include these works as well as the works sanctioned in the G.O. of 12th inst. while submitting his consolidated lists in accordance with paras 3 & 4 of the G.O. of the Secy, so that they may be kept out of the

Govt allotment. The limit of Govt liability is in the Chief Engr's estimate.

DS 5-23-11

Letter No. 565/23-24-Enc. one file dated 10th January 1924 from the Deputy Commissioner, Kolar District sent with Revenue Commissioner's Memo No.D.23-24 dated 19th January 1924 to the Revenue Secretary to the Government of Mysore.

I have the honor to forward herewith copy of the Executive Engineer's letter No. 1688 dated 26th December 1923 relating to the maintenance works &c., to Agara Doddakere, Mulbagal Taluk with the connected enclosures containing estimates for maintenance work and repairs to the said tank.

As regards the maintenance work it is stated by the Executive Engineer that the cost of the same exceeds the ryots' liability by Rs. 405/-. The excess is, of course, due to the cumulative neglect of the ryots to attend to the annual maintenance work to the tank. Every attemp was made by the Amildar to insist upon the ryots to do the work. The attempt, having proved abortive, the Public Works Department was addressed in the matter of getting the work done by Government Agency.

In compliance with the above the enclosed estimates, one for maintenance work and another for repairs to the tank are prepared and sent for my countersignature.

As this work has already been included in the list of works proposed to be started to afford relief to the distressed, I request that sanction of Government may kindly be obtained to the maintenance estimate. As regards repairs the Executive Engineer has stated that he would take action early after inspection. The work is very necessary to afford relief in connection with the distress.

Dis 5-23-12

Letter No. D.9/23-24-Enc. 1 dated 15th January 1924 from the Deputy Commissioner, Kolar District sent with Revenue Commissioner's Memo No. D.3/23-24 dated 18th January 1924 to the Revenue Secretary to the Government of M'sore.

In continuation of this office No. D.9/23-24 dated the 2nd instar I have the honor to forward herewith for sanction a list with full information of tank maintenance, Feeder channel and tank restoration works proposed to be started in the month of January 1924, in the Gudibanda Sub Taluk and to request that the preliminary sanction of Government may kindly be obtained at once and communicated by telegram

It will be seen from the list that in the case of maintenance works the estimates are covered by one year's assessment.

The liability under Feeder channels and Restoration works amounts to Rs. 8,900, and in some cases contributions are promised. As regards the restoration of Yellodu Devarakere, the cost will have to be met from the funds at the credit of the temple.

These works will be started only when the need is keenly felt, and some of them will probably be started in February 1924.

List from the Goribidnur Taluk has not yet been received and it will be sent soon after it is received here. There is no need to start any works in the Bagepalli Taluk.
